

## Using Banner Ads

Banner advertisements can be used underneath the disclaimer on your own agency webpage that includes content on multi-trip annual travel insurance. These advertisements CANNOT be used for social media promotion or anywhere else in which the disclaimer template provided by Arch is not visible. For more information on social media and disclaimers, please see those sections in this guide. Copy and paste the code below the images into your website, but make sure you update the URL to include your own agency code.
